Explosiveness + Power

Program

First half of the season

Duration

18 semaines

Session

30 to 40 min

Place

Home

For personal use only, do not share. This program is for people in good health: if you feel pain, have an injury or are in doubt, stop and ask a health professional for advice.

Your goals

Explosiveness

In handball, the decisive actions last less than 3 seconds: a first step to break into a gap, a change of direction to beat your opponent, a sprint back on defence.

- **Speed:** moving fast over a few metres.
- **Acceleration:** reaching your top speed as early as possible.
- **Changes of direction and agility:** braking, reorienting and setting off again without losing time.

The golden rules

- **Every rep flat out**, or nearly: quality matters more than quantity.
- **Recover fully** between reps: it is normal to wait.
- **Stop the set** if you slow down or your landings get heavy.
- Non-slip floor and shoes that hold your feet well.

Level 1: no more than **60 jumps** per session. Level 2: 80. Level 3: 100. Every landing counts as a jump.

Power

Power is force multiplied by speed. A jump shot, a duel at pivot or a first step all require producing a lot of force in a fraction of a second.

- **Push heavy:** increase your maximum strength with heavy loads and few reps.
- **Move fast:** turn that strength into fast movements (throws, jumps, pushes).
- **Link the two:** pair a heavy exercise with a similar fast movement (contrast method).

The golden rules

- **Few reps, lots of rest:** 3 to 5 reps, 2 to 3 minutes of recovery.
- **Every rep at maximum speed**, even with a heavy load: the intent is what counts.
- Heavy loads only if your technique is perfect.

At home: the load comes from a weighted backpack (books, water bottles), a handball or a band, and from single-leg variations.

Important: watch each exercise's animation before doing it. Tap the eye next to its name. The animation shows what the text cannot: the exact position, the direction of the movement, the rhythm and the footwork. Do not just read the program, especially for an exercise you do not know: this is what makes every session effective and safe.

How to read your sessions

- Every session is written out in full, in order: do the steps from top to bottom.
- "2-4 × 8": 2 sets at level 1, 3 at level 2, 4 at level 3, of 8 reps. "2-3 × 8": 2 sets at levels 1 and 2, 3 at level 3.
- The number in front of each exercise refers to its illustrated sheet, at the end of this document.
- If you do not know your level, read the guide again, page "Choosing your level".

Your two sessions

Timing: session 1 at least 3 days before the match, session 2 no later than 2 days before. Never the day before a match.

Weeks 1 to 4 · Into the season

Games start again: we keep the summer's strength and explosiveness without tiring the legs. Effort 6-7 out of 10. **Week 4 lighter:** one set less on every exercise.

Session 1 · the more demanding one, far from the match

1 WARM-UP

8 min

1	Light jog and running drills	2 min	
2	Forward lunge with trunk rotation	5 per side	
3	Glute bridge	1 × 10	
4	Plank	1 × 20 s	
5	Single-leg balance	20 s per leg	
6	Small jump, stable landing	1 × 5	
7	Progressive accelerations (70 %, then 85 %)	2 runs	walk back

2 EXPLOSIVENESS

10-12 min

8	Countermovement jump	2-3 × 4	75 s
9	10 m starts	4-5 runs	75 s

3 POWER

10-12 min

10	Weighted Bulgarian split squat (or heavy hip thrust)	2-3 × 8-10 per leg · 3 s descent	2-3 min
11	Rotational throw	2 × 4 per side	60 s

4 CORE AND PREVENTION

5-8 min

12	Nordic hamstring curl	2 × 3-5	60 s
13	Copenhagen plank (knee version)	2 × 15 s per side	30 s
4	Plank	1-2 × 30 s	30 s

5 COOL-DOWN

5 min

2 minutes of walking, then light stretches of 20 to 30 seconds, without forcing: hip flexors, quads, hamstrings, calves, chest and shoulders.

Session 2 · lighter

2 EXPLOSIVENESS

10-12 min

14	Pogos	2 × 10	45 s
15	5-10-5 shuttle	2-3 runs	90 s
16	Reactive starts	4-5 runs	60 s

3 POWER

10-12 min

17	Box jump	2-3 × 3	90 s
18	Two-handed ball throw	2-3 × 4	60 s

4 CORE AND PREVENTION

5-8 min

19	Shoulder external rotation	2 × 12 per arm	30 s
20	Y-T-W	2 × 8	30 s
21	Balance with a ball	2 × 20 s per leg	20 s

5 COOL-DOWN

5 min

2 minutes of walking, then light stretches of 20 to 30 seconds, without forcing: hip flexors, quads, hamstrings, calves, chest and shoulders.

All season, you can add the optional shoulder routine on a third day (10 min, for instance before club training):

Shoulder routine · 10 min (optional)

1 PREVENTION AND MOBILITY

10 min

19	Shoulder external rotation	2 × 12 per arm	20 s
20	Y-T-W	2 × 8	20 s
22	Scapular push-ups	2 × 10	20 s
23	Upper back rotation	1 × 8 per side	

Weeks 5 to 8 - Maintain with intensity

Few sets, but heavy and fast: that is what keeps strength in season. Effort 7-8 out of 10. **Week 8 lighter.**
Autumn holidays: if your league stops for 2 weeks, week 8 becomes a week of **complete rest** and week 9 a week of **work** with the 3 break sessions (end of the document), then you resume with the next block.

The exercises

In the order of the numbers used in your sessions.

Important: watch each exercise's animation before doing it. Tap the eye next to its name. The animation shows what the text cannot: the exact position, the direction of the movement, the rhythm and the footwork. Do not just read the program, especially for an exercise you do not know: this is what makes every session effective and safe.

1 Light jog and running drills

Light jog, alternating side shuffles, high knees and butt kicks.

Key points: Start slowly, then gradually pick up the pace.

2 Forward lunge with trunk rotation

Arms straight out in front of you, take a big step forward and lower into a lunge, then turn your trunk and arms towards the front leg. Come back and switch legs.

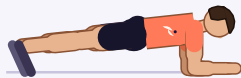

Key points: Front knee above the ankle, slow rotation.

3 Glute bridge

On your back, knees bent, feet on the floor, lift your hips until shoulders, hips and knees are in line, then lower.

Key points: Squeeze your glutes at the top, do not arch your lower back. Also contract your pelvic floor (as if holding in urine): it protects against leaks, especially for women and older people.

4 Plank

On your forearms and toes, body in a straight line from head to heels.

Key points: Squeeze your glutes and abs, breathe normally.

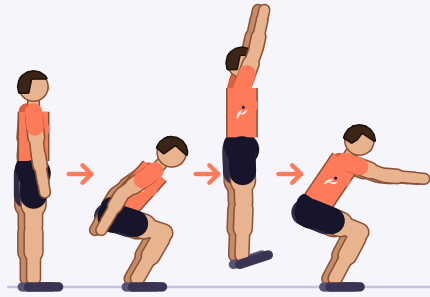

Easier: Knees on the floor.

5 Single-leg balance

On one foot, knee slightly bent, the other foot off the floor behind you, arms relaxed: hold the position without moving. To progress: close your eyes, then stand on a cushion.

Key points: The knee stays over the foot, the pelvis level.

6

Small jump, stable landing

Small jump on the spot, land softly on both feet and hold the position for 2 seconds.

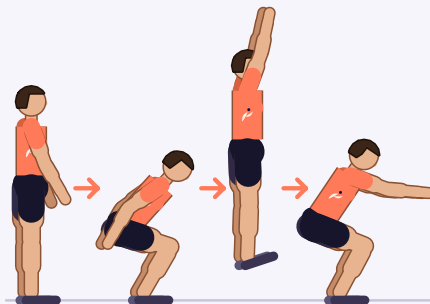

Key points: Land on the balls of your feet, knees bent and in line with your toes: they never cave inwards. In the air, pull your toes up towards your shins (locked ankle), ready for the landing.

7

Progressive accelerations

Run 15 m, building up speed: 60 %, then 80 %, then 90 % of your top speed. Walk back.

Key points: Relaxed, shoulders loose.

8

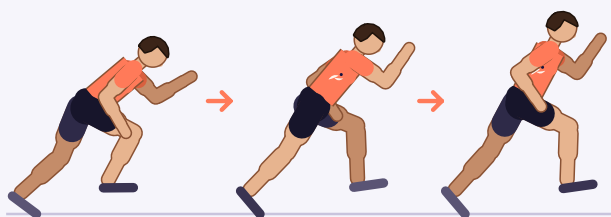

Countermovement jump

Standing, dip quickly into a half squat while swinging your arms back, then jump as high as you can without pausing. Stable landing.

Key points: Fast dip, explosive drive up: swinging your arms up helps you rise. In the air, ankle armed, ready for the landing.

Easier: A shallower dip, without the arm swing.

9 10 m starts

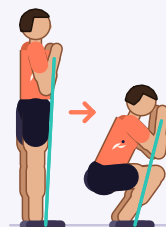

Split-stance start, trunk leaning forward. Sprint flat out for 10 m.

Key points: Short, powerful first steps, arms driving back.

At home

With a band

10 Weighted Bulgarian split squat

Back foot resting on the sofa or a chair, weighted backpack on your back: lower on the front leg over 3 seconds, then stand up as fast as possible.

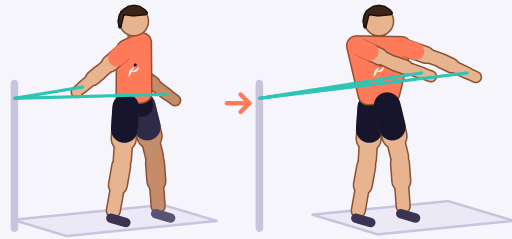

With a band: Squat with a strong band under your feet, held at your shoulders, 2-second pause at the bottom.

Key points: Controlled descent, stand up as fast as possible.

At home

With a band

11

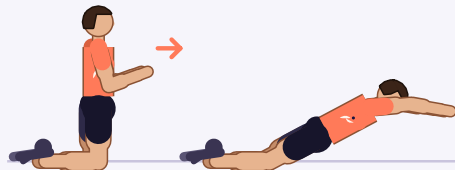

Rotational throw

Side-on to an outside wall, ball held at your hip, pivot and throw sideways, like a shot. Without a ball: fast trunk rotations, arms straight.

With a band: Band anchored to the side at hip height: rotate your trunk as fast as possible, pulling the band.

Key points: The movement starts from the hips, not the arms.

12

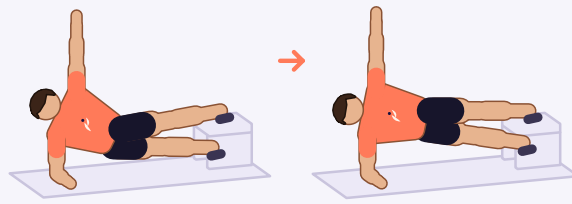

Nordic hamstring curl

Kneeling on a cushion, feet anchored under the sofa or held by another person, lean forward as slowly as possible, body straight. Catch yourself with your hands, then push back up with your hands.

Key points: Hips extended: the body stays straight from the knees to the head.

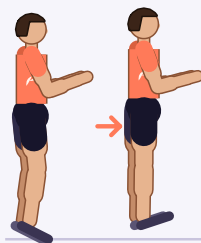

Easier: Shorter descent.

13 Copenhagen plank

On your side, on your forearm (elbow under the shoulder), top leg resting on the sofa or a chair (at the knee, or at the foot to make it harder). Lift your hips, reach your top arm up to the ceiling and hold the position.

Key points: Body in line: the inside of the top thigh does the work.

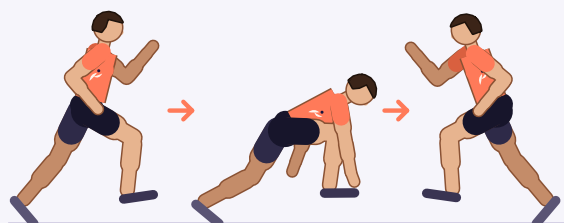

14 Pogos

Small quick jumps on the spot, legs almost straight: your ankles do the bouncing.

Key points: Shortest possible ground contact. In the air, pull your toes up towards your shins (locked ankle), ready for the landing.

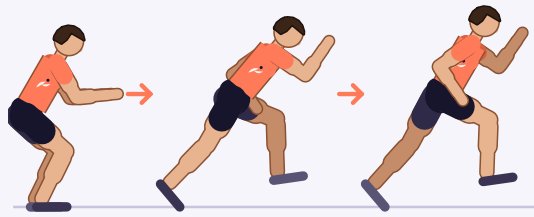

Easier: Lower jumps, slower rhythm.

15 5-10-5 shuttle

Start in the middle: 5 m to the right (touch the line), 10 m to the left (touch), back to the middle.

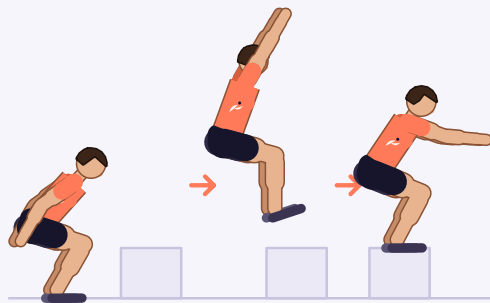

Key points: Get low before each change of direction, push off with the outside leg.

16 Reactive starts

Start on a partner's signal (clap, voice) or react to a dropped ball. Vary the starting position: facing forward (as in the animation), facing backward, side shuffling.

Key points: React, don't guess.

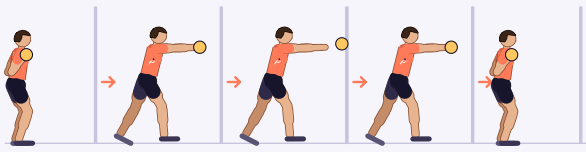

17 Box jump

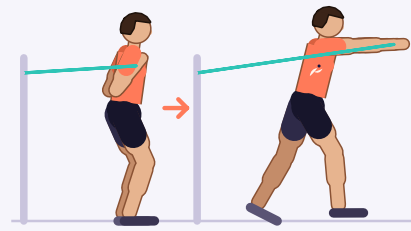

Jump onto a stair step or a very stable bench, land softly, step back down. Without a stable support: squat jump.

Key points: Jump high, not far. Stepping down protects your tendons. In the air, pull your toes up towards your shins (locked ankle), ready for the landing.

At home

With a band

18 Two-handed ball throw

Facing an outside wall, handball or basketball at your chest, throw as hard as you can. Without a ball: plyometric push-ups.

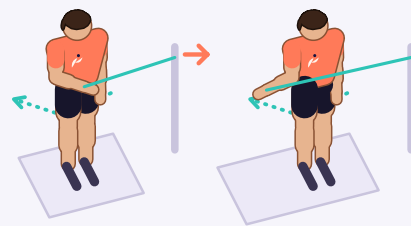

With a band: Band anchored behind you at chest height: push forward as fast as possible.

Key points: Push with your legs and arms at the same time.

At home

With a band

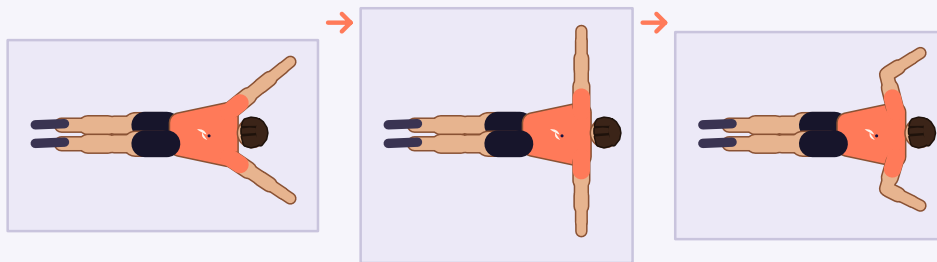

19 Shoulder external rotation

Lying on your side, top elbow tucked against your waist and bent at 90°, a water bottle in your hand, forearm resting in front of your belly: lift your forearm towards the ceiling by pivoting around the elbow (the hand moves away from your belly), then lower slowly.

With a band: Standing, band anchored to the side: elbow tucked in, move your forearm outwards.

Key points: The elbow does not move, 2 seconds on the way back.

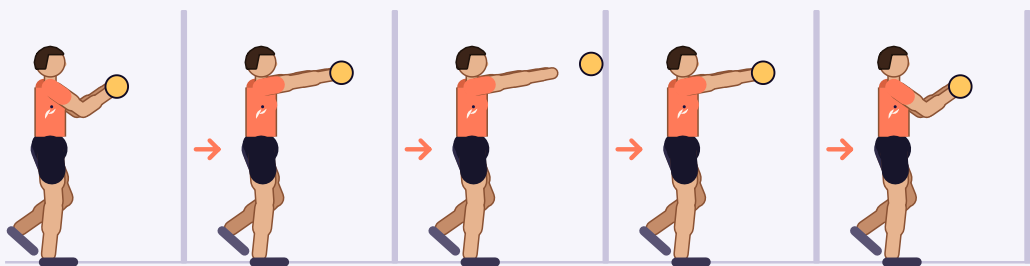

Easier: Without a band.

20 Y-T-W

Lying face down, forehead on a towel. Lift your arms off the floor to draw three letters with your body: Y (arms straight, diagonally above your head), T (arms out to the sides), then W (elbows bent, pulled in close to your ribs). Hold each letter for 2 seconds, squeezing your shoulder blades.

Key points: Thumbs towards the ceiling, no arching.

21 Balance with a ball

On one leg, throw a ball against a wall and catch it. Harder: standing on a folded cushion.

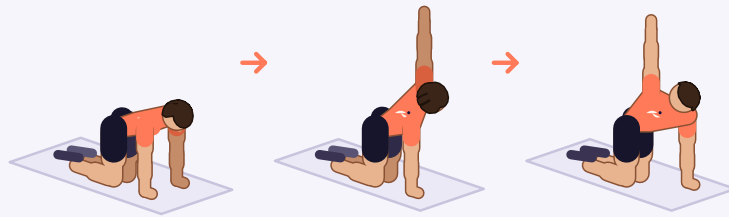

Key points: The standing knee stays in line.

22 Scapular push-ups

In a straight-arm plank, squeeze then spread your shoulder blades without bending your elbows.

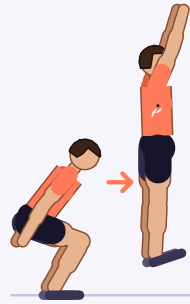

Key points: Small movement: only the shoulder blades move.

23 Upper back rotation

On all fours, hands under your shoulders. Rotate your upper back as you reach one arm towards the ceiling, following your hand with your eyes, then bring it back down and do the same with the other arm.

Key points: The pelvis does not move.

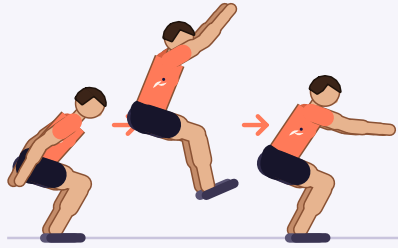

24 Squat jump

Lower into a half squat, pause for one second, then jump as high as you can. Stable landing.

Key points: Push hard into the floor, arms helping. In the air, pull your toes up towards your shins (locked ankle), ready for the landing.

Easier: Without the pause.

25 Broad jumps and triple jump

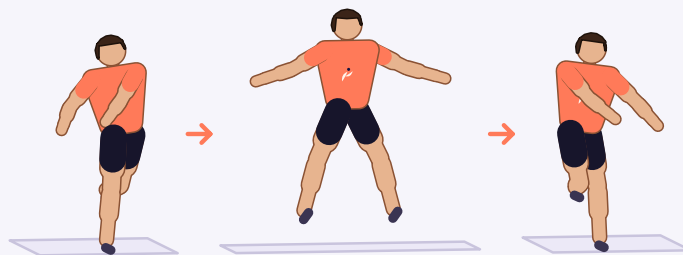

Standing long jump from both feet, stable landing: this is what the animation shows. Triple jump: three jumps in a row, right foot, left foot, then land on both feet.

Key points: Arms swinging forward, controlled landing. In the air, pull your toes up towards your shins (locked ankle), ready for the landing.

26 **20 m sprint**

Sprint at top speed over 20 m.

Key points: Relaxed, shoulders loose.

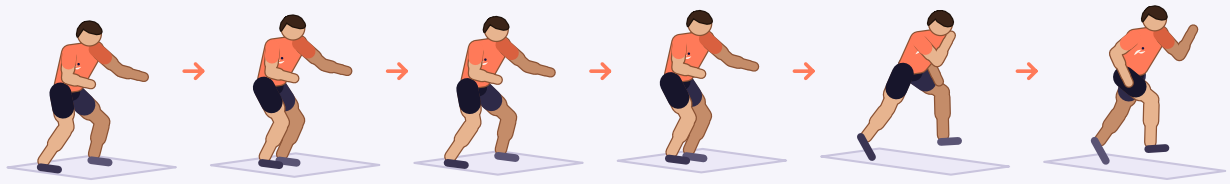

27 Lateral bound with stable landing

On one leg, jump sideways onto the other leg and hold for 2 seconds, like a skater.

Key points: The standing knee stays in line on landing. In the air, pull your toes up towards your shins (locked ankle), ready for the landing.

Easier: Shorter jump, the free foot touches the floor to help.

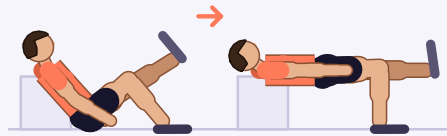

28 Defensive slides + start

In a low defensive stance, take 2 to 3 side shuffles without crossing your feet, then sprint forward over 5 m, as for an interception.

Key points: Stay low, feet wider than your shoulders, chest up. Push with the outside leg, never cross your feet during the shuffles.

Easier: Shuffles only, then start at a jog.

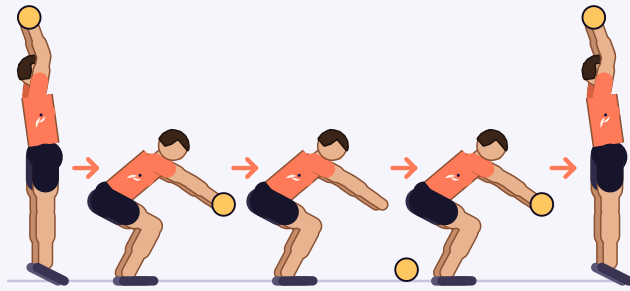

29 Single-leg hip thrust

Upper back on the sofa, one leg straight in the air: drive your hips up forcefully and hold for 2 seconds at the top.

With a band: On both legs, strong band across your hips, pause at the top.

Key points: Push through your heels, lock your glutes at the top. Also contract your pelvic floor (as if holding in urine): it protects against leaks, especially for women and older people.

30 Overhead throw

Handball or basketball above your head, slam it hard into the floor in front of you as you bend your legs, then catch it on the bounce.

Key points: Your whole body takes part, tight core.

31 Plyometric push-ups

Push hard enough for your hands to leave the floor on every rep.

Key points: Land with your arms slightly bent.

Easier: Hands on a bench.

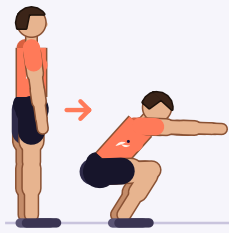

32 Weighted push-ups

Push-ups with a weighted backpack. Without a bag: feet raised, 3-second descent.

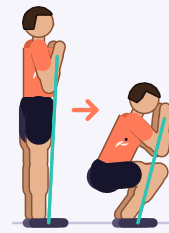

With a band: Push-ups with a strong band across your back.

Key points: Shoulder blades squeezed, explosive push.

At home

With a band

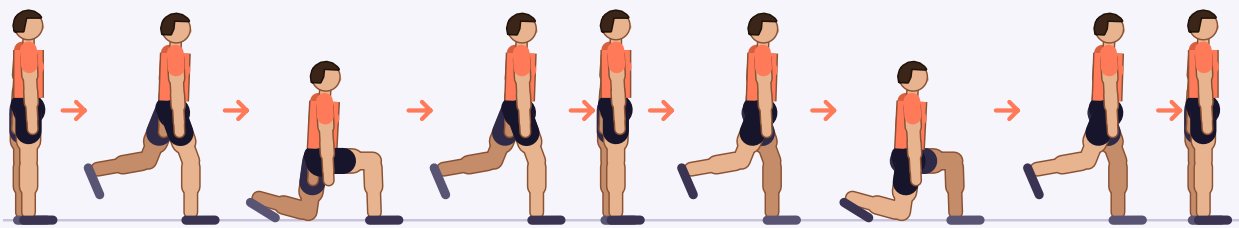

33 Squat

Feet shoulder-width apart, arms straight out in front, lower as if sitting down, thighs at least parallel to the floor, then stand up. When it gets easy: a weighted backpack held tight against your chest.

With a band: Band under your feet, held at your shoulders: it resists as you stand up.

Key points: Straight back, heels on the floor, knees in line with your feet.

Easier: Sit down on a chair and stand up.

34 Reverse lunge

Step one leg back and lower until the back knee almost touches the floor. Come back by pushing through the front leg, then switch legs (the front foot stays planted). When it gets easy: a weighted backpack.

With a band: Band under your front foot, held at your shoulders.

Key points: Upright trunk, front knee above the ankle.

Easier: With support (wall, chair).

35 **15-15 intervals**

15 seconds of fast running, 15 seconds of walking or very slow jogging, continuously.

Key points: Same distance on every rep: pick a finish point.

Easier: 15 seconds fast, 30 seconds of recovery.

36 Handball shuttles

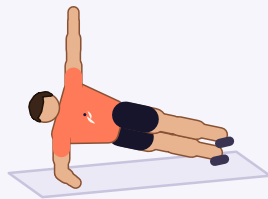

Back and forth between two lines 10 m apart: forwards, side shuffling and backwards.

Key points: Stay low in the changes of direction.

37 Easy run

Continuous running at a pace where you can hold a conversation.

Key points: If you cannot talk, slow down or alternate running and walking.

38 Side plank

On your side, on your forearm (elbow under the shoulder) and the edge of your foot, body in line, hips high, top arm reaching up to the ceiling.

Key points: The hips do not drop.

Easier: Knees on the floor.
