Power + Muscle development

Program

First half of the season

Duration

18 semaines

Session

30 to 40 min

Place

Home

For personal use only, do not share. This program is for people in good health: if you feel pain, have an injury or are in doubt, stop and ask a health professional for advice.

Your goals

Power

Power is force multiplied by speed. A jump shot, a duel at pivot or a first step all require producing a lot of force in a fraction of a second.

- **Push heavy:** increase your maximum strength with heavy loads and few reps.
- **Move fast:** turn that strength into fast movements (throws, jumps, pushes).
- **Link the two:** pair a heavy exercise with a similar fast movement (contrast method).

The golden rules

- **Few reps, lots of rest:** 3 to 5 reps, 2 to 3 minutes of recovery.
- **Every rep at maximum speed,** even with a heavy load: the intent is what counts.
- Heavy loads only if your technique is perfect.

At home: the load comes from a weighted backpack (books, water bottles), a handball or a band, and from single-leg variations.

Muscle development

In handball, you take contacts in every attack and every defence. Stronger muscles protect your joints and make you harder to knock off balance.

- **Strength:** pushing, pulling and lifting heavier.
- **Mass gain:** building muscle size.
- **Core and stability:** transferring force from your legs to your arm and staying stable in contacts.

The golden rules

- **Technique first:** a load only goes up if the movement stays clean.
- **Progress a little every week:** one more rep, or a slightly heavier load.
- **Control the descent:** 2 to 3 seconds down, then back up with energy.
- Keep 2 to 3 reps in reserve: never train to failure.

Mass gain: training sends the signal, but muscles are built with food and sleep. Eat enough, with protein at every meal, and sleep 8 hours. For nutrition advice, see a registered dietitian.

At home: without heavy loads, the exercise gets harder when you slow down the descent, add a weighted backpack or switch to one leg. This is why there are more reps.

Important: watch each exercise's animation before doing it. Tap the eye next to its name. The animation shows what the text cannot: the exact position, the direction of the movement, the rhythm and the footwork. Do not just read the program, especially for an exercise you do not know: this is what makes every session effective and safe.

How to read your sessions

- Every session is written out in full, in order: do the steps from top to bottom.
- "2-4 × 8": 2 sets at level 1, 3 at level 2, 4 at level 3, of 8 reps. "2-3 × 8": 2 sets at levels 1 and 2, 3 at level 3.
- The number in front of each exercise refers to its illustrated sheet, at the end of this document.
- If you do not know your level, read the guide again, page "Choosing your level".

Your two sessions

Timing: session 1 at least 3 days before the match, session 2 no later than 2 days before. Never the day before a match.

Weeks 1 to 4 · Into the season

Games start again: we keep the summer's strength and explosiveness without tiring the legs. Effort 6-7 out of 10. **Week 4 lighter:** one set less on every exercise.

Session 1 · the more demanding one, far from the match

1 WARM-UP

8 min

1	Light jog and running drills	2 min	
2	Forward lunge with trunk rotation	5 per side	
3	Glute bridge	1 × 10	
4	Plank	1 × 20 s	
5	Single-leg balance	20 s per leg	
6	Small jump, stable landing	1 × 5	
7	Progressive accelerations (70 %, then 85 %)	2 runs	walk back

2 POWER

10-12 min

8	Weighted Bulgarian split squat (or heavy hip thrust)	2-3 × 8-10 per leg · 3 s descent	2-3 min
9	Rotational throw	2 × 4 per side	60 s

3 MUSCLE DEVELOPMENT

10-12 min

10	Squat	2-3 × 9-12 · 3 s descent	2 min
11	Inverted row (or pull-ups)	2-3 × 10	90 s
12	Hip thrust	2 × 12-15	75 s

4 CORE AND PREVENTION

5-8 min

13	Nordic hamstring curl	2 × 3-5	60 s
14	Copenhagen plank (knee version)	2 × 15 s per side	30 s
4	Plank	1-2 × 30 s	30 s

5 COOL-DOWN

5 min

2 minutes of walking, then light stretches of 20 to 30 seconds, without forcing: hip flexors, quads, hamstrings, calves, chest and shoulders.

Session 2 - lighter

1 WARM-UP

8 min

1	Light jog and running drills	2 min	
2	Forward lunge with trunk rotation	5 per side	
3	Glute bridge	1 × 10	
4	Plank	1 × 20 s	
5	Single-leg balance	20 s per leg	
6	Small jump, stable landing	1 × 5	
7	Progressive accelerations (70 %, then 85 %)	2 runs	walk back

2 POWER

10-12 min

15	Box jump	2-3 × 3	90 s
16	Two-handed ball throw	2-3 × 4	60 s

3 MUSCLE DEVELOPMENT

10-12 min

17	Push-ups	2 × 8-10	60 s
18	Plank with shoulder taps	2 × 10 per side	30 s
19	Farmer's walk	2 × 20 m	60 s

4 CORE AND PREVENTION

5-8 min

20	Shoulder external rotation	2 × 12 per arm	30 s
21	Y-T-W	2 × 8	30 s
22	Balance with a ball	2 × 20 s per leg	20 s

5 COOL-DOWN

5 min

2 minutes of walking, then light stretches of 20 to 30 seconds, without forcing: hip flexors, quads, hamstrings, calves, chest and shoulders.

All season, you can add the optional shoulder routine on a third day (10 min, for instance before club training):

Shoulder routine - 10 min (optional)

1 PREVENTION AND MOBILITY

10 min

20	Shoulder external rotation	2 × 12 per arm	20 s
21	Y-T-W	2 × 8	20 s
23	Scapular push-ups	2 × 10	20 s
24	Upper back rotation	1 × 8 per side	

Weeks 5 to 8 - Maintain with intensity

Few sets, but heavy and fast: that is what keeps strength in season. Effort 7-8 out of 10. **Week 8 lighter.**
Autumn holidays: if your league stops for 2 weeks, week 8 becomes a week of **complete rest** and week 9 a week of **work** with the 3 break sessions (end of the document), then you resume with the next block.

Weeks 17 and 18 · The Christmas break

Week 17: complete rest, no sessions. Body and mind need it. Walking, cycling or another sport for fun if you feel like it. **Week 18: a week of work** to prepare the January restart: the 3 sessions below, without equipment, on 3 non-consecutive days. The day before the restart, nothing more than an easy jog.

Session A · Legs and jumps · 25 min

1 WARM-UP

8 min

1	Light jog and running drills	2 min	
2	 Forward lunge with trunk rotation	5 per side	
3	 Glute bridge	1 × 10

3 COOL-DOWN

5 min

2 minutes of walking, then light stretches of 20 to 30 seconds, without forcing: hip flexors, quads, hamstrings, calves, chest and shoulders.

The exercises

In the order of the numbers used in your sessions.

Important: watch each exercise's animation before doing it. Tap the eye next to its name. The animation shows what the text cannot: the exact position, the direction of the movement, the rhythm and the footwork. Do not just read the program, especially for an exercise you do not know: this is what makes every session effective and safe.

1 Light jog and running drills

Light jog, alternating side shuffles, high knees and butt kicks.

Key points: Start slowly, then gradually pick up the pace.

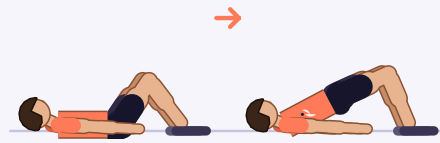

2

Forward lunge with trunk rotation

Arms straight out in front of you, take a big step forward and lower into a lunge, then turn your trunk and arms towards the front leg. Come back and switch legs.

Key points: Front knee above the ankle, slow rotation.

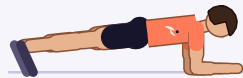

3

Glute bridge

On your back, knees bent, feet on the floor, lift your hips until shoulders, hips and knees are in line, then lower.

Key points: Squeeze your glutes at the top, do not arch your lower back. Also contract your pelvic floor (as if holding in urine): it protects against leaks, especially for women and older people.

4

Plank

On your forearms and toes, body in a straight line from head to heels.

Key points: Squeeze your glutes and abs, breathe normally.

Easier: Knees on the floor.

5

Single-leg balance

On one foot, knee slightly bent, the other foot off the floor behind you, arms relaxed: hold the position without moving. To progress: close your eyes, then stand on a cushion.

Key points: The knee stays over the foot, the pelvis level.

6

Small jump, stable landing

Small jump on the spot, land softly on both feet and hold the position for 2 seconds.

Key points: Land on the balls of your feet, knees bent and in line with your toes: they never cave inwards. In the air, pull your toes up towards your shins (locked ankle), ready for the landing.

7

Progressive accelerations

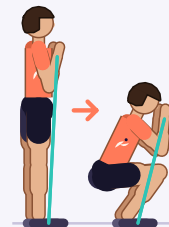

Run 15 m, building up speed: 60 %, then 80 %, then 90 % of your top speed. Walk back.

Key points: Relaxed, shoulders loose.

At home

With a band

8

Weighted Bulgarian split squat

Back foot resting on the sofa or a chair, weighted backpack on your back: lower on the front leg over 3 seconds, then stand up as fast as possible.

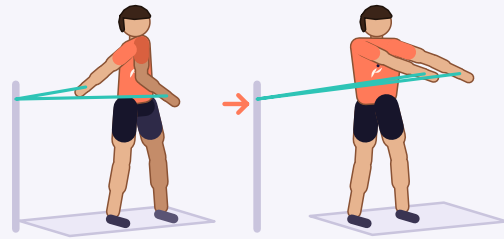

With a band: Squat with a strong band under your feet, held at your shoulders, 2-second pause at the bottom.

Key points: Controlled descent, stand up as fast as possible.

At home

With a band

9

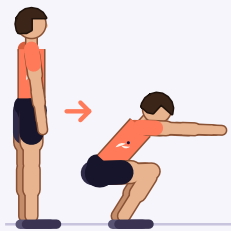

Rotational throw

Side-on to an outside wall, ball held at your hip, pivot and throw sideways, like a shot. Without a ball: fast trunk rotations, arms straight.

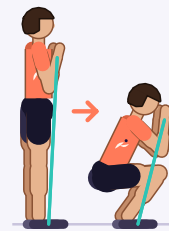

With a band: Band anchored to the side at hip height: rotate your trunk as fast as possible, pulling the band.

Key points: The movement starts from the hips, not the arms.

At home

With a band

10

Squat

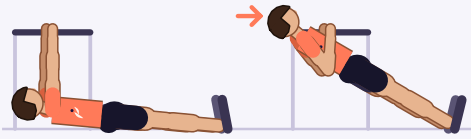

Feet shoulder-width apart, arms straight out in front, lower as if sitting down, thighs at least parallel to the floor, then stand up. When it gets easy: a weighted backpack held tight against your chest.

With a band: Band under your feet, held at your shoulders: it resists as you stand up.

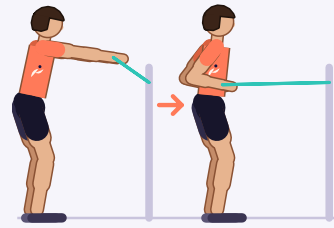

Key points: Straight back, heels on the floor, knees in line with your feet.

Easier: Sit down on a chair and stand up.

At home

With a band

11

Inverted row

Lying under a sturdy table, hands on the edge, body straight: pull your chest towards the table, then lower. Other option: one-arm row with a weighted backpack.

With a band: Band anchored to a door at chest height: pull your elbows back.

Key points: Pull with your back, the shoulder blade moves towards the spine.

12

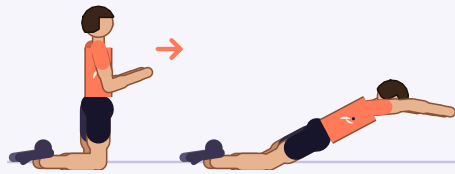

Hip thrust

Upper back against the sofa, feet on the floor, lift your hips until shoulders, hips and knees are in line. When it gets easy: on one leg.

With a band: Band across your hips, held to the floor by your hands on each side.

Key points: Squeeze your glutes at the top for one second. Also contract your pelvic floor (as if holding in urine): it protects against leaks, especially for women and older people.

Easier: Glute bridge on the floor.

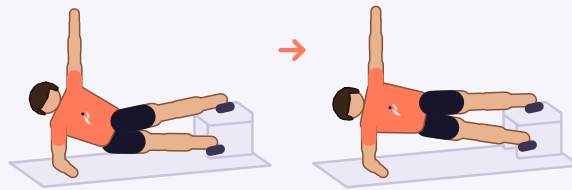

13 Nordic hamstring curl

Kneeling on a cushion, feet anchored under the sofa or held by another person, lean forward as slowly as possible, body straight. Catch yourself with your hands, then push back up with your hands.

Key points: Hips extended: the body stays straight from the knees to the head.

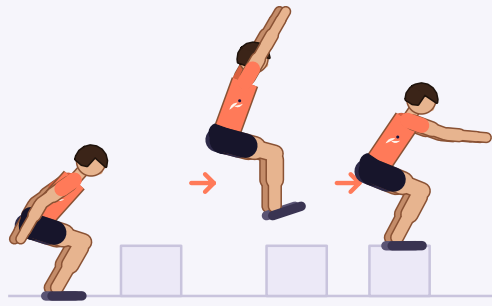

Easier: Shorter descent.

14 Copenhagen plank

On your side, on your forearm (elbow under the shoulder), top leg resting on the sofa or a chair (at the knee, or at the foot to make it harder). Lift your hips, reach your top arm up to the ceiling and hold the position.

Key points: Body in line: the inside of the top thigh does the work.

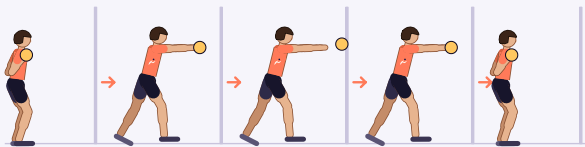

15 Box jump

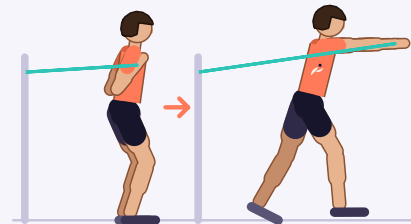

Jump onto a stair step or a very stable bench, land softly, step back down. Without a stable support: squat jump.

Key points: Jump high, not far. Stepping down protects your tendons. In the air, pull your toes up towards your shins (locked ankle), ready for the landing.

At home

With a band

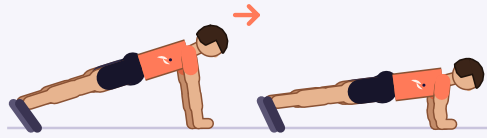

16 Two-handed ball throw

Facing an outside wall, handball or basketball at your chest, throw as hard as you can. Without a ball: plyometric push-ups.

With a band: Band anchored behind you at chest height: push forward as fast as possible.

Key points: Push with your legs and arms at the same time.

17 Push-ups

Hands slightly wider than your shoulders, body braced, lower your chest close to the floor then push.
Harder: feet raised on a chair.

With a band: Band across your back, held under each hand: it resists as you push.

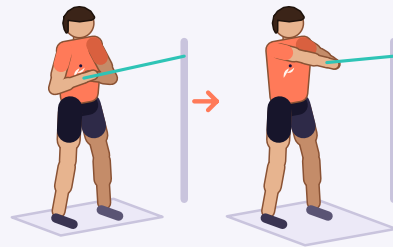

Key points: Elbows at 45° from your body, the hips do not sag.

Easier: Hands on a table, or knees on the floor.

At home

With a band

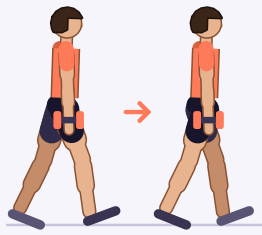

18 Plank with shoulder taps

In a straight-arm plank, feet apart: touch the opposite shoulder with one hand, then the other, without your hips moving.

With a band: Pallof press: band anchored to the side at chest height, press your arms out in front of you without letting your trunk rotate.

Key points: Resist the rotation: this is a core exercise.

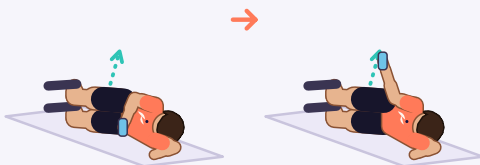

19 Farmer's walk

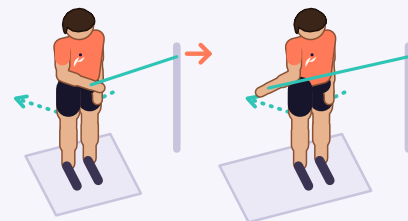

Walk with a heavy load in each hand: shopping bags, packs of water or water containers. If it is too light, double the distance.

Key points: Shoulders down, upright trunk, steady steps.

At home

With a band

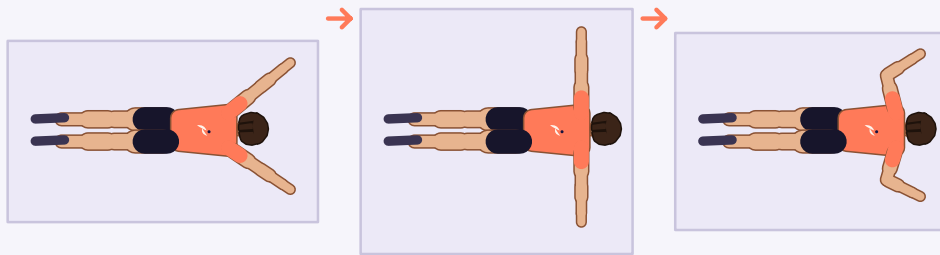

20 Shoulder external rotation

Lying on your side, top elbow tucked against your waist and bent at 90°, a water bottle in your hand, forearm resting in front of your belly: lift your forearm towards the ceiling by pivoting around the elbow (the hand moves away from your belly), then lower slowly.

With a band: Standing, band anchored to the side: elbow tucked in, move your forearm outwards.

Key points: The elbow does not move, 2 seconds on the way back.

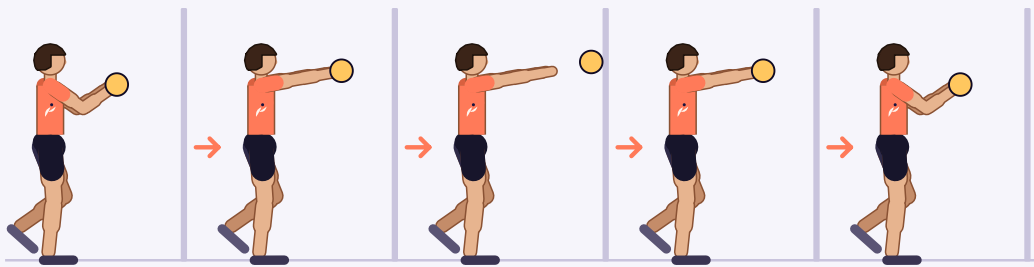

Easier: Without a band.

21 Y-T-W

Lying face down, forehead on a towel. Lift your arms off the floor to draw three letters with your body: Y (arms straight, diagonally above your head), T (arms out to the sides), then W (elbows bent, pulled in close to your ribs). Hold each letter for 2 seconds, squeezing your shoulder blades.

Key points: Thumbs towards the ceiling, no arching.

22 Balance with a ball

On one leg, throw a ball against a wall and catch it. Harder: standing on a folded cushion.

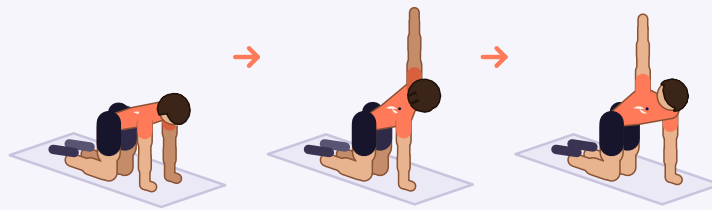

Key points: The standing knee stays in line.

23 Scapular push-ups

In a straight-arm plank, squeeze then spread your shoulder blades without bending your elbows.

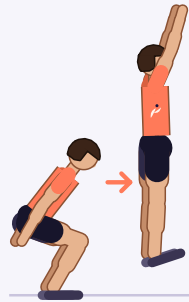

Key points: Small movement: only the shoulder blades move.

24 Upper back rotation

On all fours, hands under your shoulders. Rotate your upper back as you reach one arm towards the ceiling, following your hand with your eyes, then bring it back down and do the same with the other arm.

Key points: The pelvis does not move.

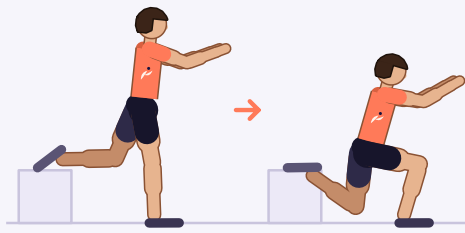

25 Squat jump

Lower into a half squat, pause for one second, then jump as high as you can. Stable landing.

Key points: Push hard into the floor, arms helping. In the air, pull your toes up towards your shins (locked ankle), ready for the landing.

Easier: Without the pause.

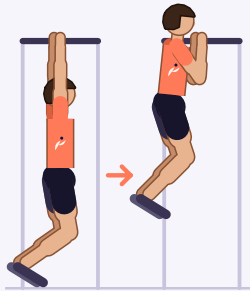

26 Bulgarian split squat

Back foot resting on the sofa or a chair, lower on the front leg then stand back up. When it gets easy: a weighted backpack.

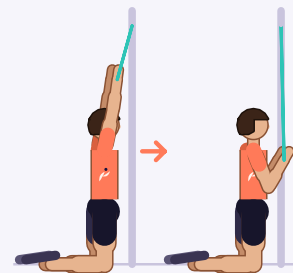

With a band: Band under your front foot, held at your shoulders.

Key points: The front leg does the work, the back foot is only for balance.

At home

With a band

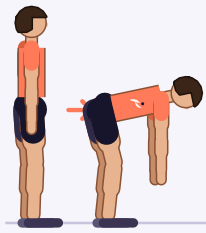

27 Pull-ups

On a doorway bar: hanging, pull until your chin is over the bar, then lower. Without a bar: inverted row under a table.

With a band: Kneeling, band anchored high: pull your elbows down, close to your body. With a bar: the band under your knees to help you.

Key points: Controlled descent, arms almost straight at the bottom.

Easier: With a band, or only the slow descent.

28 Romanian deadlift

Feet hip-width apart, knees slightly bent: tip your trunk forward by pushing your hips back, flat back, until you feel the stretch behind your thighs, then stand up. Harder: on one leg (the other goes back), or a bag in your hand.

With a band: On both legs, band under your feet, held with both hands: tip your trunk forward, flat back, and stand up.

Key points: Flat back from start to finish, the load slides along your legs.

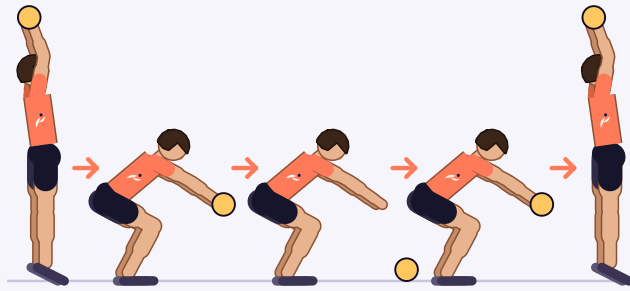

29 Single-leg hip thrust

Upper back on the sofa, one leg straight in the air: drive your hips up forcefully and hold for 2 seconds at the top.

With a band: On both legs, strong band across your hips, pause at the top.

Key points: Push through your heels, lock your glutes at the top. Also contract your pelvic floor (as if holding in urine): it protects against leaks, especially for women and older people.

30 Overhead throw

Handball or basketball above your head, slam it hard into the floor in front of you as you bend your legs, then catch it on the bounce.

Key points: Your whole body takes part, tight core.

31 Plyometric push-ups

Push hard enough for your hands to leave the floor on every rep.

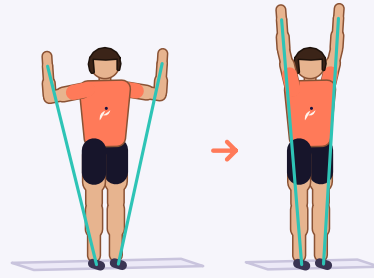

Key points: Land with your arms slightly bent.

Easier: Hands on a bench.

At home

With a band

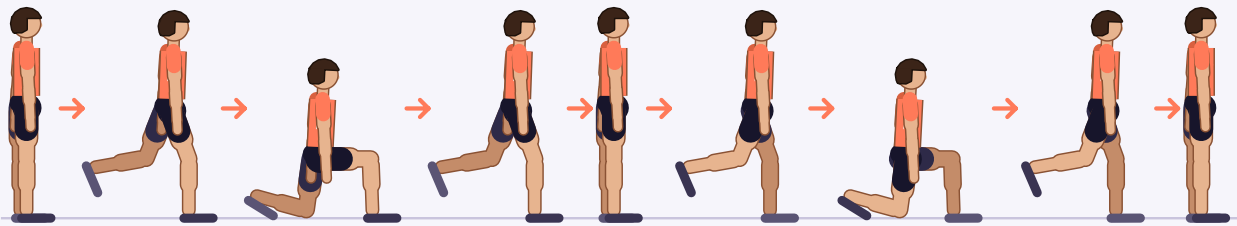

32 Pike push-ups

Hands on the floor, hips up (body in an upside-down V): bend your elbows to bring the top of your head towards the floor, then push.

With a band: Standing on the band, press it overhead, then lower back to your shoulders.

Key points: Tight core, do not arch your lower back.

Easier: Feet closer to your hands, shorter range.

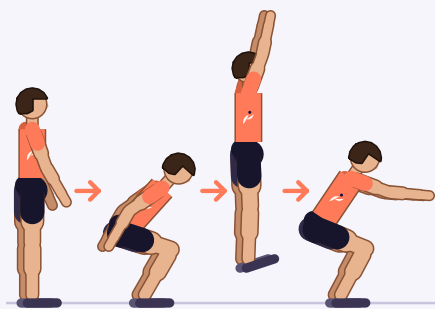

33 Reverse lunge

Step one leg back and lower until the back knee almost touches the floor. Come back by pushing through the front leg, then switch legs (the front foot stays planted). When it gets easy: a weighted backpack.

With a band: Band under your front foot, held at your shoulders.

Key points: Upright trunk, front knee above the ankle.

Easier: With support (wall, chair).

34 Countermovement jump

Standing, dip quickly into a half squat while swinging your arms back, then jump as high as you can without pausing. Stable landing.

Key points: Fast dip, explosive drive up: swinging your arms up helps you rise. In the air, ankle armed, ready for the landing.

Easier: A shallower dip, without the arm swing.

35 Weighted push-ups

Push-ups with a weighted backpack. Without a bag: feet raised, 3-second descent.

With a band: Push-ups with a strong band across your back.

Key points: Shoulder blades squeezed, explosive push.

36 15-15 intervals

15 seconds of fast running, 15 seconds of walking or very slow jogging, continuously.

Key points: Same distance on every rep: pick a finish point.

Easier: 15 seconds fast, 30 seconds of recovery.

37 Handball shuttles

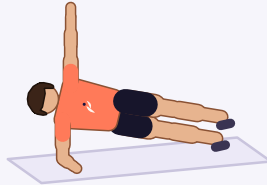

Back and forth between two lines 10 m apart: forwards, side shuffling and backwards.

Key points: Stay low in the changes of direction.

38 Easy run

Continuous running at a pace where you can hold a conversation.

Key points: If you cannot talk, slow down or alternate running and walking.

39 Side plank

On your side, on your forearm (elbow under the shoulder) and the edge of your foot, body in line, hips high, top arm reaching up to the ceiling.

Key points: The hips do not drop.

Easier: Knees on the floor.
