In-season maintenance

Your sessions

Muscle development + Fitness

Program

In-season maintenance

Duration

12 weeks

Session

30 to 40 min

Place

Home

For personal use only, do not share. This program is for people in good health: if you feel pain, have an injury or are in doubt, stop and ask a health professional for advice.

Your goals

Muscle development

In handball, you take contacts in every attack and every defence. Stronger muscles protect your joints and make you harder to knock off balance.

- **Strength:** pushing, pulling and lifting heavier.
- **Mass gain:** building muscle size.
- **Core and stability:** transferring force from your legs to your arm and staying stable in contacts.

The golden rules

- **Technique first:** a load only goes up if the movement stays clean.
- **Progress a little every week:** one more rep, or a slightly heavier load.
- **Control the descent:** 2 to 3 seconds down, then back up with energy.
- Keep 2 to 3 reps in reserve: never train to failure.

Mass gain: training sends the signal, but muscles are built with food and sleep. Eat enough, with protein at every meal, and sleep 8 hours. For nutrition advice, see a registered dietitian.

At home: without heavy loads, the exercise gets harder when you slow down the descent, add a weighted backpack or switch to one leg. This is why there are more reps.

Fitness

During a match, players cover about 4 km on average, alternating walking, running, sprints and contacts (Wagner et al., 2014). What makes the difference at the end of a game is the ability to repeat intense efforts and recover quickly between them.

- **Endurance:** the base that lets you recover between actions.
- **Repeated effort capacity:** stringing sprints together without losing speed.
- **Fat loss:** increasing energy expenditure while keeping your performance.
- **General fitness:** lasting a whole match and a whole season.

The golden rules

- **Progressive:** the volume goes up week after week, never all at once.
- **Stick to the paces:** easy = you can talk; steady = a few words; hard = impossible to talk.
- On repeated sprints, stop the set if your speed drops clearly.

Fat loss: training increases energy expenditure, but the result depends mostly on food and sleep. Avoid restrictive diets, which lower performance. For support, see a registered dietitian.

When three durations are given ("12-15-18 min"), they are for levels 1, 2 and 3.

Important: watch each exercise's animation before doing it. Tap the eye next to its name. The animation shows what the text cannot: the exact position, the direction of the movement, the rhythm and the footwork. Do not just read the program, especially for an exercise you do not know: this is what makes every session effective and safe.

How to read your sessions

- Every session is written out in full, in order: do the steps from top to bottom.
- "2-4 × 8": 2 sets at level 1, 3 at level 2, 4 at level 3, of 8 reps. "2-3 × 8": 2 sets at levels 1 and 2, 3 at level 3.
- The number in front of each exercise refers to its illustrated sheet, at the end of this document.
- If you do not know your level, read the guide again, page "Choosing your level".

Your two sessions

The sessions are the same for all 12 weeks. **Weeks 4, 8 and 12 are lighter:** do one set less on each exercise. Weeks 1 to 3, 5 to 7 and 9 to 11: sessions as written, aiming for an effort of 7-8 out of 10.

Timing: session 1 at least 3 days before the match, session 2 no later than 2 days before. Never the day before a match.

Session 1 - the more demanding one, far from the match

1 WARM-UP

8 min

1	Light jog and running drills	2 min	
2	 Forward lunge with trunk rotation	5 per side	
3	 Glute bridge	1 × 10	
4	 Plank	1 × 20 s	
5	 Single-leg balance	20 s per leg	
6	 Small jump, stable landing	1 × 5	
7	Progressive accelerations (70 %, then 85 %)	2 runs	walk back

2 MUSCLE DEVELOPMENT

10-12 min

8	 Squat	2-3 × 7-9 · 3 s descent	2 min
9	 Inverted row (or pull-ups)	2-3 × 7	90 s
10	 Hip thrust	2 × 12	75 s

3 FITNESS

10-12 min

11	15-15 intervals	1-2 × 8 min	3 min
----	-----------------	-------------	-------

4 CORE AND PREVENTION

5-8 min

12	 Nordic hamstring curl	2 × 3-5	60 s
13	 Copenhagen plank (knee version)	2 × 15 s per side	30 s
4	 Plank	1-2 × 30 s	30 s

5 COOL-DOWN

5 min

2 minutes of walking, then light stretches of 20 to 30 seconds, without forcing: hip flexors, quads, hamstrings, calves, chest and shoulders.

Session 2 · lighter

1 WARM-UP

8 min

1	Light jog and running drills	2 min	
2	 Forward lunge with trunk rotation	5 per side	
3	 Glute bridge	1 × 10	
4	 Plank	1 × 20 s	
5	 Single-leg balance	20 s per leg	
6	 Small jump, stable landing	1 × 5	
7	Progressive accelerations (70 %, then 85 %)	2 runs	walk back

2 MUSCLE DEVELOPMENT

10-12 min

14	 Push-ups	2 × 8-10	60 s
15	 Plank with shoulder taps	2 × 10 per side	30 s
16	 Farmer's walk	2 × 20 m	60 s

3 FITNESS

10-12 min

17	Repeated sprints	1-2 sets	3 min
18	Easy run (recovery)	5-8 min	

4 CORE AND PREVENTION

5-8 min

19	 Shoulder external rotation	2 × 12 per arm	30 s
20	 Y-T-W	2 × 8	30 s
21	 Balance with a ball	2 × 20 s per leg	20 s

5 COOL-DOWN

5 min

2 minutes of walking, then light stretches of 20 to 30 seconds, without forcing: hip flexors, quads, hamstrings, calves, chest and shoulders.

The exercises

In the order of the numbers used in your sessions.

Important: watch each exercise's animation before doing it. Tap the eye next to its name. The animation shows what the text cannot: the exact position, the direction of the movement, the rhythm and the footwork. Do not just read the program, especially for an exercise you do not know: this is what makes every session effective and safe.

1 Light jog and running drills

Light jog, alternating side shuffles, high knees and butt kicks.

Key points: Start slowly, then gradually pick up the pace.

2 Forward lunge with trunk rotation

Take a big step forward, lower into a lunge, then turn your trunk towards the front leg. Come back and switch legs.

Key points: Front knee above the ankle, slow rotation.

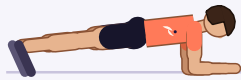

3

Glute bridge

On your back, knees bent, feet on the floor, lift your hips until shoulders, hips and knees are in line, then lower.

Key points: Squeeze your glutes at the top, do not arch your lower back. Also contract your pelvic floor (as if holding in urine): it protects against leaks, especially for women and older people.

4

Plank

On your forearms and toes, body in a straight line from head to heels.

Key points: Squeeze your glutes and abs, breathe normally.

Easier: Knees on the floor.

5

Single-leg balance

On one foot, knee slightly bent, arms relaxed: hold the position without moving. To progress: close your eyes, then stand on a cushion.

Key points: The knee stays over the foot, the pelvis level.

6

Small jump, stable landing

Small jump on the spot, land softly on both feet and hold the position for 2 seconds.

Key points: Land on the balls of your feet, knees bent and in line with your toes: they never cave inwards. In the air, pull your toes up towards your shins (locked ankle), ready for the landing.

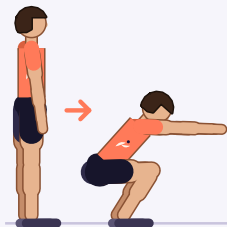

7

Progressive accelerations

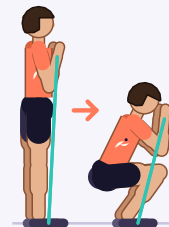

Run 15 m, building up speed: 60 %, then 80 %, then 90 % of your top speed. Walk back.

Key points: Relaxed, shoulders loose.

At home

With a band

8

Squat

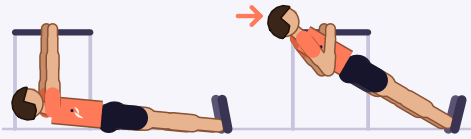

Feet shoulder-width apart, lower as if sitting down, thighs at least parallel to the floor, then stand up. When it gets easy: a weighted backpack held tight against your chest.

With a band: Band under your feet, held at your shoulders: it resists as you stand up.

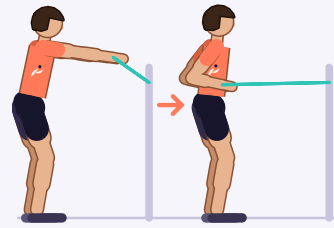

Key points: Straight back, heels on the floor, knees in line with your feet.

Easier: Sit down on a chair and stand up.

At home

With a band

9

Inverted row

Lying under a sturdy table, hands on the edge, body straight: pull your chest towards the table, then lower. Other option: one-arm row with a weighted backpack.

With a band: Band anchored to a door at chest height: pull your elbows back.

Key points: Pull with your back, the shoulder blade moves towards the spine.

10

Hip thrust

Upper back against the sofa, feet on the floor, lift your hips until shoulders, hips and knees are in line. When it gets easy: on one leg.

With a band: Band across your hips, held to the floor by your hands on each side.

Key points: Squeeze your glutes at the top for one second. Also contract your pelvic floor (as if holding in urine): it protects against leaks, especially for women and older people.

Easier: Glute bridge on the floor.

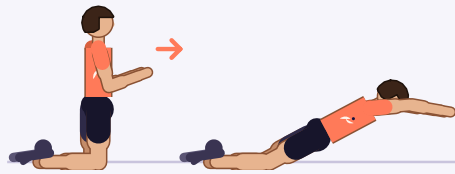

11

15-15 intervals

15 seconds of fast running, 15 seconds of walking or very slow jogging, continuously.

Key points: Same distance on every rep: pick a finish point.

Easier: 15 seconds fast, 30 seconds of recovery.

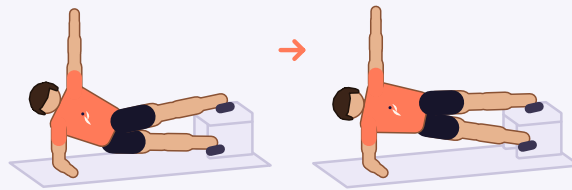

12 Nordic hamstring curl

Kneeling on a cushion, feet anchored under the sofa or held by another person, lean forward as slowly as possible, body straight. Catch yourself with your hands, then push back up with your hands.

Key points: Hips extended: the body stays straight from the knees to the head.

Easier: Shorter descent.

13 Copenhagen plank

On your side, on your forearm, top leg resting on the sofa or a chair (at the knee, or at the foot to make it harder). Lift your hips and hold the position.

Key points: Body in line: the inside of the top thigh does the work.

14 Push-ups

Hands slightly wider than your shoulders, body braced, lower your chest close to the floor then push.
Harder: feet raised on a chair.

With a band: Band across your back, held under each hand: it resists as you push.

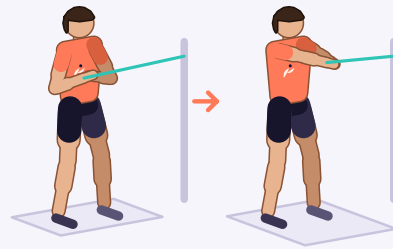

Key points: Elbows at 45° from your body, the hips do not sag.

Easier: Hands on a table, or knees on the floor.

At home

With a band

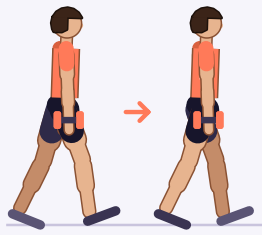

15 Plank with shoulder taps

In a straight-arm plank, feet apart: touch the opposite shoulder with one hand, then the other, without your hips moving.

With a band: Pallof press: band anchored to the side at chest height, press your arms out in front of you without letting your trunk rotate.

Key points: Resist the rotation: this is a core exercise.

16 Farmer's walk

Walk with a heavy load in each hand: shopping bags, packs of water or water containers. If it is too light, double the distance.

Key points: Shoulders down, upright trunk, steady steps.

17 Repeated sprints

6 sprints of 20 m. You go again every 20 seconds: the time left is for walking back.

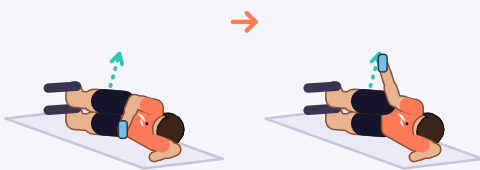

Key points: Every sprint flat out.

18 Easy run

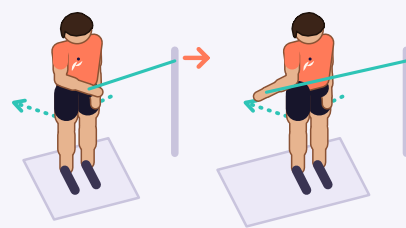

Continuous running at a pace where you can hold a conversation.

Key points: If you cannot talk, slow down or alternate running and walking.

At home

With a band

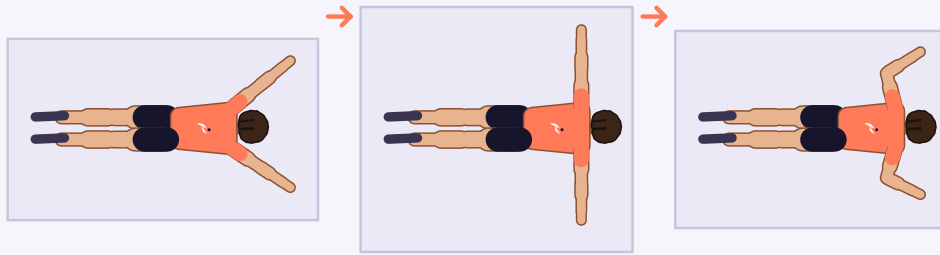

19 Shoulder external rotation

Lying on your side, top elbow tucked against your waist and bent at 90°, a water bottle in your hand, forearm resting in front of your belly: lift your forearm towards the ceiling by pivoting around the elbow (the hand moves away from your belly), then lower slowly.

With a band: Standing, band anchored to the side: elbow tucked in, move your forearm outwards.

Key points: The elbow does not move, 2 seconds on the way back.

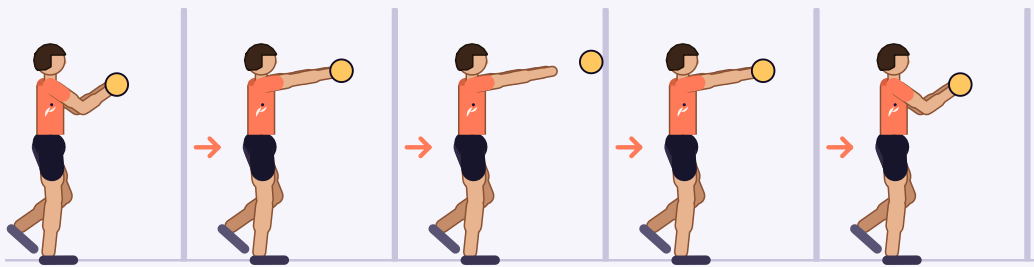

Easier: Without a band.

20 Y-T-W

Lying face down, forehead on a towel. Lift your arms off the floor to draw three letters with your body: Y (arms straight, diagonally above your head), T (arms out to the sides), then W (elbows bent, pulled in close to your ribs). Hold each letter for 2 seconds, squeezing your shoulder blades.

Key points: Thumbs towards the ceiling, no arching.

21 Balance with a ball

On one leg, on a folded cushion, throw a ball against a wall and catch it.

Key points: The standing knee stays in line.
